**CONGRATULATIONS  
CLASS OF 2021**

To the Graduates of the University of New Brunswick, Class of 2021,

Graduation is one of the most important ceremonies we have at UNB. It is the moment when friends, family and the university recognize your success. It is no small achievement!

Regrettably, the current pandemic does not allow us to celebrate your achievement in the traditional manner but the significance of the occasion remains undiminished.

For some this may be the end of their formal education while for others it is only the first step. Regardless, during your time at UNB you have acquired new knowledge, made new friends and matured as a person. While the world is full of both challenges and opportunities, you are well prepared to take on both. Do not hesitate to do so.

The UNB community is a welcoming one. I encourage you to remain connected to the university. It is truly a global community and one that can help to make this a better world for all.

Our expectations for you are great but so is our confidence that you will accomplish much. Enjoy the moment and tomorrow begin to make your mark. Graduates, you are our pride and our hope.

Congratulations,

**DR. ALLISON D. McCAIN**  
Chancellor  
University of New Brunswick

## PEYTON JUHNKE

Valedictorian Peyton Juhnke will be representing all spring 2021 graduates on UNB's Fredericton campus.

"I feel incredibly honoured to have been selected as the valedictorian for the Fredericton campus, and I want to take this opportunity to acknowledge the strong women who mentored and supported me throughout my degree at UNB," says Peyton. "Sarah, Kate and Amanda - kinanâskomitin (thank you) doesn't even scratch the surface."

Peyton is graduating with a Bachelor of Philosophy in Interdisciplinary Leadership from Renaissance College. She was a Dean's List student in all three years of her degree, as well as one of the Indigenous Co-Representatives for the Renaissance College Society.

In 2019, Peyton completed an internship with Dr. Sarah King in the Office of Experiential Education where she created Campus Closet, a program that provides students with no-cost career attire for interviews, presentations and experiential learning placements.

In 2020, Peyton received the Blue Metropolis Award for Excellence in Indigenous Studies for her essay "Indigenous Freedom." She was also a part of the Student Union's Breaking Stereotypes Campaign at the invitation of Nadia Wysote, the SU Indigenous Representative at the time.

In the final year of her degree, Peyton developed the framework for an Indigenous Studies minor which she proposed and completed as a way of advocating for Indigenous knowledge systems to be more widely acknowledged and respected within academia. As part of this minor, she completed an independent study with Amanda Myran and Katelyn Copage on Indigenous Research Methodologies.

## ALLYSON LAMONT

Valedictorian Allyson Lamont will address spring 2021 graduates in the faculties of arts; science, applied science and engineering; and business on the Saint John campus.

"It is a tremendous honour to be valedictorian for the Saint John campus," says Allyson. "I am so grateful for every member of the UNB community who provided me with the opportunities that got me where I am today. I hope as a representative of the graduating class during this time of uncertainty, I can remind my fellow graduates there are brighter days ahead."

Allyson will be receiving her Bachelor of Science with Honours in Psychology from UNB Saint John. Throughout university she was a Dean's List student and a Beaverbrook Scholar. Allyson was involved in many student support initiatives, such as UNBSJ's mental health advocating group, Jack.org. She was an active volunteer in the area of mental health and supported fellow students by giving her time to the Peer Support Centre on UNB's Fredericton campus.

She was a Learning Community Leader offering advising for first and upper-year students to improve the quality of their experience. Allyson also mentored with Promise Partnership, a program that connects the university with the community to help combat poverty.

Allyson received the Social Sciences and Humanities Research Council (SSHRC) Canada Graduate Scholarship and will be continuing her education at UNB in the accelerated master's program in psychology.

## CITATION FOR LAURIE MURISON

# LAURIE MURISON

## DOCTOR OF SCIENCE, HONORIS CAUSA

Laurie Murison came to New Brunswick as a graduate student to research right whales and moved to Grand Manan in 1986 while completing her Master of Science degree in marine biology at the University of Guelph, Ontario. Over four decades, she has been an internationally renowned marine scientist and a pillar of marine life conservation in Atlantic Canada.

In 1987, Murison became the executive director of the Grand Manan Whale and Seabird Research Station, and despite being “from away,” established herself as an integral member of the Grand Manan community. She accomplished this by leaning into and embedding herself in science while actively working to understand how science could be made relevant to the larger community. Through her lifetime work as a naturalist she repeatedly demonstrated how science could serve the long-term interests of local people, be it through teaching summer programs or by working with fishers to rescue whales caught in fishing gear.

Murison’s rapprochement of science and community created an unprecedented bridge between whale biologists and regional fishers. Her work with the Grand Manan Fishermen’s Association fostered new respect and a new reality of co-existence between the natural environment and the fishing industry. She was instrumental in helping to design, implement, and fund pilot projects to test ropeless fishing gear and train fishers in rescuing ensnared whales.

Ever the scientist, she used whale-watching trips to compile data on whales, basking sharks, and seabirds in the lower Bay of Fundy, through photographs and GPS coordinates. Those data serve as longitudinal evidence for major international research and have enhanced and inspired the work of researchers from across Canada and the world.

This body of evidence from a single individual, collected over nearly four decades, is key to implementing evidence-based policies to protect marine wildlife. It was a major contributor to Transport Canada's unprecedented decision in 2003 to move the shipping channels in the Bay of Fundy to avoid the most frequented grounds of North Atlantic right whales, the first such rerouting of shipping lanes in the world.

Laurie Murison's commitment to conservation also includes Grand Manan's built heritage as she led a group initiative to restore the Swallowtail Lighthouse from imminent collapse. Today, it is one of Canada's best-known lighthouses and in 2020 was featured on a stamp by Canada Post. She was also an active member, consultant and Board President with the Grand Manan Museum. There she wrote grants and contributed to displays, murals, and signage with a care to aesthetics, understanding the need to engage both the heart and the head.

As a marine biologist, Laurie Murison has made wide-ranging and impressively interdisciplinary contributions to New Brunswick, Canada, and the world. The longitudinal data she compiled over decades has helped scientists understand the impact of climate change on marine environments, enhance the safety of marine wildlife, and help the oceans reveal their secrets.

Tourists from around the world who climb the steps to Swallowtail Lighthouse do not know that a local whale scientist was a critical moving force behind the site's preservation. People today marvel at the richness of Grand Manan's heritage, the balancing of the marine and built environments, and the forging of ties between the local population and those from away. This understanding that scientists and fishers can work together in the interests of a healthy environment are all legacies given to us by Laurie Murison.

For all these reasons, UNB is proud to posthumously award her the honorary degree Doctor of Science.

# PROFESSORS EMERITI

## **LIUCHEN CHANG (PROFESSOR EMERITUS IN ELECTRICAL AND COMPUTER ENGINEERING)**

Dr. Liuchen Chang joined UNB as an assistant professor in 1992, contributing significantly and continuously to the university's electrical and computer engineering department. Dr. Chang is recognized for his renowned work in power engineering across Canada and abroad. He has published more than 380 refereed papers in journals and conference proceedings, supervised 19 postdoctoral fellows, received research funding of \$24 million, and has supervised or co-supervised eight research associates/scientists, 39 PhD students and 44 Master of Science students.

Dr. Chang worked hard to change the face of research in electric power at UNB and played a large role in growing the program to international recognition. He started with the Sustainable Power Research Group, which has evolved into the Emera and NB Power Research Centre for Smart Grid Technologies.

Dr. Chang is a fellow of the Canadian Academy of Engineering, winner of the Canadian Wind Energy Association R. J. Templin Award, and is currently president of the IEEE Power Electronics Society.

## **ROSS LECKIE (PROFESSOR EMERITUS IN ENGLISH)**

Dr. Ross Leckie has been part of UNB's English department as a professor and director of creative writing since 1997. During his time, he supervised 50 graduate students in creative writing and co-supervised seven. Twenty-six of these students have published books, launching successful literary careers.

Dr. Leckie was editor-in-chief of *The Fiddlehead*, Canada's oldest literary journal. During this time, the journal's external grants increased from \$25,000 a year to between \$80,000 and \$90,000. He now contributes as an active associate editor.

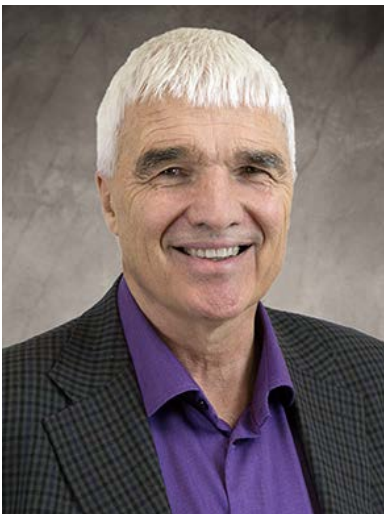

Dr. Leckie authored three well-regarded books of poetry and co-edited *Coastlines: The Poetry of Atlantic Canada*, a landmark collection. He published poems in journals across Canada and internationally, and published scholarly articles on 20th century American and Canadian literature, post-colonial literature and cultural studies. He also played a significant role in the creation of the New Brunswick Book Awards and was recently awarded the Community Impact Award at Word Feast, a community-driven literary festival in Fredericton.

### **MARC MILNER (PROFESSOR EMERITUS IN HISTORY)**

Dr. J. Marc Milner is one of Canada's premier historians whose work has made a significant impact locally, nationally and internationally. During his 33 years at UNB, Dr. Milner provided extraordinary leadership as director of the military and strategic studies program and the Brigadier Milton F. Gregg, VC, Centre for the Study of War and Society from 1986 to 2019, and as chair of history from 2001-2006. He supervised 70 master's students and PhD students to completion, and taught nearly 5,000 undergraduates.

Dr. Milner is the author of 16 books and three edited volumes, 57 scholarly chapters and articles, 97 popular articles, and papers for 45 academic conferences, including six keynotes. His work has appeared in five languages and Braille. As director of the NB Military Heritage Project, Dr. Milner oversaw the publication of 28 books on New Brunswick history. His national and international awards include UNB University Research Scholar in 2010, the Admiral's Medal from the Royal Canadian Navy for "outstanding achievements in the advancement of maritime affairs in Canada," the Brigadier Collins Book Prize from the US Commission on Military History, and appointment as an Honorary Colonel in the RCAF in recognition of his 22 years of service on Canada's military colleges' oversight boards.

### **JON DOUGLAS WILLMS (PROFESSOR EMERITUS IN EDUCATION)**

For over 40 years, Dr. J. Douglas Willms dedicated his career to research and program development aimed at improving the life chances of children. He is known for his pioneering work on school effectiveness and the effects of inclusive school practices. Dr. Willms also made significant contributions to children's health and well-being, youth literacy, accountability of school systems and the development of practical assessment tools to support the work of teachers and principals.

Dr. Willms has published over 300 research articles and given lectures and keynote presentations in over 50 countries. He is the past president of the International Academy of Education, a member of the US National Academy of Education and a fellow of the Royal Society of Canada.

From 2002 to 2017, he held the Tier 1 Canada Research Chair in Literacy and Human Development at UNB. He also served as director of the Canadian Research Institute for Social Policy from 1996 to 2019.
